## THIS WEEK'S CREATION MOMENT

### Evolutionist Rebukes Evolutionists

*Prove all things; hold fast that which is good. – 1 Thessalonians 5:21*

Meet Wolf-Ekkehard Lönning, a brilliant scientist who worked at the Max-Planck Institute until his retirement. Though he has written four books on the subject of evolution, he has infuriated evolutionists everywhere by daring to challenge Neo-Darwinism on scientific grounds.

He told the *Diplomacy Post* in March 2014: "A scientific hypothesis should be potentially falsifiable.... However," he added, "the idea of slow evolution by 'infinitesimally small inherited variations' etc. has been falsified by the findings of palaeontology... as well [as] genetics. Yet its adherents principally reject any scientific proof against Neo-Darwinism," he said, "so that, in fact, their theory has become a non-falsifiable worldview, to which people stick in spite of all contrary evidence."

He added that scientists continue to support evolution despite the evidence that actually falsified evolution because "without Darwinism, philosophic materialism has lost its battle against an intelligent origin of the world."

Though Wolf-Ekkehard Lönning has stopped short of giving recognition to God as the Intelligent Designer, we applaud his work for showing that evolution doesn't even deserve to be called scientific.
